## CONTENTS

Volume 24 1981

Number 1

| | | |
|---|---|---|
| Investigation of the properties and genesis of West Coast wet land soils, South Island, New Zealand 1. Type localities, profile morphology, and soil chemistry | **G. Mew and R. Lee** | **1** |
| Separation and definition of Eyre and Lismore soil series on the Canterbury Plains, New Zealand | **T. H. Webb, C. W. Ross, W. F. Rennie, and C. M. Bennett** | **25** |
| Nitrogen availability in some soils from tussock grasslands and introduced pastures 6. Influence of sampling time on soil nitrogen mineralisation | **D. J. Ross and Annette Cairns** | **39** |
| Comparative influence of tussock (*Chionochloa macra*) and shrub (*Dracophyllum muscoides*) vegetation on soil biochemical properties at an alpine site | **D. J. Ross and T. W. Speir** | **43** |
| Extreme winds over the seas around New Zealand | **S. J. Reid** | **51** |
| A test of radon ground measurements as a geothermal prospecting tool in New Zealand | **N. E. Whitehead** | **59** |
| Observations on analysis of selenium in plant and animal tissues and in some soil samples | **A. B. Grant** | **65** |
| Concentrations of cadmium, copper, selenium, zinc, and lead in tissues of New Zealand cattle, pigs, and sheep | **S. R. B. Solly, K. J. A. Revfeim, and G. D. Finch** | **81** |
| Wind energy flux at New Zealand radar-wind stations | **W. E. Bardsley** | **89** |
| Snowpack structure at Mt Hutt, Canterbury, in 1979 | **P. L. Weir and I. F. Owens** | **95** |
| Some variations of rainfall and river flow in New Zealand | **A. I. Tomlinson** | **103** |

## Number 2

| | | |
|---|---|---|
| Soil pattern of Campbell Island | **I. B. Campbell** | **111** |
| Nitrogen availability and microbial biomass in stockpiled topsoils in Southland | **D. J. Ross and Annette Cairns** | **137** |
| Studies on a climosequence of soils in tussock grasslands<br>24. Enzyme activities of tussock litter exposed around the base of tussock plants | **T. W. Speir and D. J. Ross** | **145** |
| Observations and implications of diurnal asymmetry in "bright" sunshine hours | **K. J. A. Revfeim and J. W. D. Hessell** | **153** |
| A physical and chemical survey of Ketetahi Hot Springs, Mt Tongariro, New Zealand | **P. R. Moore and J. L. Brock** | **161** |
| Chemical properties and composition of Waikato coals | **V. R. Gray and T. A. Daly** | **179** |
| Alumino-silicate chamotte (grog): a review | **D. S. Perera** | **203** |
| Starch granule growth in cereal grains | **Peter Meredith, Lynette D. Jenkins, Moshe J. Pinthus, and Yigal Sar-Shalom** | **209** |

## Numbers 3 and 4

| | | |
|---|---|---|
| Potassium in soils and the New Zealand genetic soil classification | **R. Lee and A. J. Metson** | **213** |
| Invertase, amylase, and respiratory activities of a soil profile under a kauri tree in North Auckland, New Zealand: a note | **D. J. Ross** | **219** |
| Soil variation related to landscape and vegetation features in North Otago hill country | **P. D. McIntosh, G. Backholm, and J. Smith** | **225** |
| Soil variability in the Motukarara set from lacustrine sediments, Lake Ellesmere, Canterbury, New Zealand | **S. M. Smith and E. J. B. Cutler** | **245** |
| Bacterial depuration of the Pacific oyster (*Crassostrea gigas*) in New Zealand | **D. H. Buisson, G. C. Fletcher, and C. W. Begg** | **253** |
| Infrared and adsorption studies of a New Zealand erionite | **Laurence P. Aldridge and Christopher G. Pope** | **263** |
| Fluoride in superphosphate liquid phases | **A. G. Charleston** | **273** |
| Distribution of gold on a table | **A. G. Fricker and J. C. Acker** | **275** |
| Amino acid composition of some New Zealand animal feedstuffs | **R. Bickerstaffe** | **281** |
| The faecal coliform test and oxidation ponds | **A. Duncan, I. Johnson, M. Heyworth, and M. W. Loutit** | **287** |
| Environmental isotopes in New Zealand hydrology | | |
| 1 Introduction: The role of oxygen-18, deuterium, and tritium in hydrology | **M. K. Stewart and C. B. Taylor** | **295** |
| 2 Standards, measurement techniques, and reporting of measurements for oxygen-18, deuterium, and tritium in water | **J. R. Hulston, C. B. Taylor, G. L. Lyon, M. K. Stewart, and M. A. Cox** | **313** |
| 3 Isotope hydrology of the Waikoropupu Springs and Takaka River, northwest Nelson | **M. K. Stewart and P. W. Williams** | **323** |
| 4 Oxygen isotope variations in subsurface waters of the Waimea Plains, Nelson | **M. K. Stewart, M. J. I. Dicker, and M. R. Johnston** | **339** |
| Author index | | **349** |
| Subject index | | **351** |
